

Godswill Nathaniel

Software Engineer

 Nigeria [mazi.dev](#) [github.com/maziiddev](#) [x.com/maziiddev](#) [linkedin.com/in/godswillnathaniel](#)

PROFILE

Software engineer building web, mobile, backend and blockchain applications with React, Next.js, Vue, Node.js, Python, Go, Rust and Solidity. Has delivered many freelance and contract projects end to end, working with clients from requirements through to deployment, and leads software development on a cross-platform app for neurodivergent people. Founder of Zeekon Academy, co-founder of Exren, and builder of the Beyond the Stack community, with ventures spanning tech education, proptech and community. Teaches engineering courses and mentors student teams, and holds a BSc in Physics that grounds a rigorous, analytical approach to problem-solving.

EXPERIENCE

Software Lead · Deurrows Studio

Contract

- Lead software development for a mobile app built for neurodivergent people, combining games and ASMR experiences in one product.
- Built the games, including an arrow puzzle, with Flutter and the Flame game engine.
- Built and shipped both the Android and iOS versions of the app.
- Deliver features to specification from a defined product brief, working embedded with the studio.

Software Engineer · Freelance

Various clients

- Delivered many freelance projects, from requirements and design through to deployment.
- Built responsive web applications with React, Next.js, Vue.js, TypeScript and TailwindCSS, integrated with backend APIs. Clients include Attitech Hub.
- Worked directly with clients to scope work, agree deliverables, and ship to deadline.

Frontend Developer · Applead

Freelance

- Design and build responsive, production-grade frontends with Vue.js, TypeScript and TailwindCSS.
- Migrate legacy HTML/CSS/JavaScript interfaces to a component-based Vue architecture with shared state management.
- Integrate frontends with backend REST APIs and implement role-based access and multi-step business workflows.

Frontend Engineer · Technobs Digital Solution

2023 – 2024

- Designed and developed responsive, user-friendly websites aligned with each client's brand and business objectives.
- Worked with cross-functional teams to integrate frontend components and deliver a consistent experience across devices and screen sizes.

SIM Card Sales Agent · Godspower Telecommunications

2017 – 2019 · MTN Nigeria products, Abia State

- Sold SIM cards and MTN products and services, helping customers choose the right offers for their needs.
- Met sales targets through clear communication, relationship building and tailored recommendations.
- Built lasting customer relationships that supported repeat business, satisfaction and loyalty.

SKILLS

Languages

TypeScript, JavaScript, Python, Go, Rust, Solidity, Dart, SQL

Frontend

React, Next.js, Vue.js, Nuxt, Pinia, TailwindCSS, HTML/CSS, UI/UX design

Backend

Node.js, Express, Django, FastAPI, Prisma, REST APIs, gRPC, JWT, RBAC

Mobile & games

Flutter, Flame

Blockchain

Solidity, Solana, smart contracts, decentralized applications

Data & infrastructure

PostgreSQL, Redis, Qdrant, Docker, Git/GitHub

AI/ML

Retrieval-augmented generation, fine-tuning fundamentals

LEADERSHIP

Team leadership Community building

Mentorship Curriculum design

Cross-functional collaboration

Public speaking Project management

COMMUNITY & LEADERSHIP

Beyond the Stack

Building a tech community: Ideas. People. Possibilities.

Stellar Nigeria Ambassador

Accepted 2026.

Instructor & Mentor, Zeekon Academy

Teach engineering courses; mentor and judge student hackathon teams.

Music Director

Lead and coordinate musicians and musical direction for performances.

Computer Science Teacher · Blessed Brighter Future Secondary School

2016 – 2017

- Taught students Microsoft tools, strengthening their digital literacy and practical office skills.
- Established and led the JET Club, a student tech club that used project-based learning to build real projects.
- Guided students through hands-on work that built real-world problem-solving skills.

PROJECTS & VENTURES

Zeekon Academy · Founder 2025 – Present

- Founded a tech education community and academy where builders learn in cohorts guided by mentors.
- Teaches engineering courses and mentors and judges student hackathon projects, including health AI and fintech teams.

Exren · Co-founder

- Co-founded an AI-powered proptech platform for real estate rentals.
- Building the mobile app with a clean, maintainable architecture.

Course Representative

Represented and coordinated a class of students at Nnamdi Azikiwe University.

Member, Google Developer Student Clubs

EDUCATION

B.Sc Physics and Industrial Physics

Nnamdi Azikiwe University · 2020 – 2024

Senior Secondary School Certificate

Day Spring Academy · 2011 – 2016

CERTIFICATIONS

CS50: Introduction to Computer Science

Harvard

Software Engineering Programme

ALX Africa

Frontend Development Professional

Certificate
